PROJECTS

Transaction Dapp *Solidity, Hardhat, React, Tailwind CSS, JavaScript*

<https://github.com/BelugaWhaleSam/transaction-dapp-web3>

Web3.0 blockchain application, that lets you send transactions. Also, it lets you to send messages and gif (to specific keywords) along with the transaction. All the latest transactions are visible on the page with sender and receiver addresses, with hyperlink to Goerli Etherscan to that address.

Twitter Clone Dapp *Solidity, Hardhat, React, Material UI, JavaScript, Chai*

<https://github.com/BelugaWhaleSam/twitter-clone-dapp>

A decentralised web application. We can send tweets by connecting to our metamask account. Also only the owner can delete their tweets. Also, we have twitter widgets using react twitter embed package.

SocialMedia Dapp *Lens Protocol, React, Chakra UI, Urql, GraphQL*

<https://github.com/BelugaWhaleSam/socialMedia-dapp-lens>

Social media web dapp, we can get recommended profiles and posts using lens protocol that provides decentralised social graph for our profile.

Blockchain Blog with Database *Node js, Express js, MongoDB, EJS, Mongoose*

<https://github.com/BelugaWhaleSam/Blog-DB>

Web application that is used as a template to create Blog page on blockchain technology. One can publish their blogs by going to compose section of page.

Ethereum Todolist *Solidity, Hardhat, React, JavaScript*

<https://github.com/BelugaWhaleSam/ethereum-todolist>

Todolist, client side application for the to do list that will talk directly to the blockchain. It also connects to the blockchain network with our personal account using an Ethereum wallet in order to interact with the todo list application.

PROFESSIONAL CERTIFICATES AND VOLUNTEERING

Blockchain Foundations

Completed the course requirements of blockchain foundation. Certificate ID: jrw7t12ncj

EOSIO

Oct 2022

EOSIO Non-Technical

Completed the course requirements of Non-Technical. Certificate ID: 4tyoi068c8

EOSIO

Oct 2022

UNStop Igniters Club, Bangalore Institute of Technology

Club Community Manager, moderating club's discord channel and managing group/channel in an effective way to boost the community vibes
