PROFESSIONAL EXPERIENCE

Frontend Web Developer Intern   Jul 2023 – Aug 2023 | Bangalore
50Fin
Contributed to the platform: **50fin** ☑ · *Tech Stack: React js, TS, Github, Firebase Hosting, Styled Components*
- Worked on React.js development for 50Fin Official responsive site using TypeScript and styled components with the team.
- Utilized Firebase hosting, automated GitHub Action deployment, gained exposure to GCP and React's best practices.

Website and Blockchain Freelance Developer
- *Fiverr US Client:* Integrated NFT-based login using JS APIs on **BlokZoo** ☑ , securing user access via Blockchain tokens.
- *Blackcrab IT Services Client:* Built a **Functional website** ☑ with React, styled components, and JS animation libraries.
- *UAS professional from IWPA Client:* Built a **Professional Portfolio** ☑ using React, Tailwind, and Firebase for database.

Blockchain Developer Intern   Dec 2022 – Mar 2023 | Portugal
GetBoarded Technologies
Contributed to the platform: **VideoWiki** ☑ · *Tech Stack: React js, Next js, Node js, Solidity, Hardhat, JS/TS, Docker(Beginner)*
- Integrated decentralised metadata file storage using JS SDKs with Node.js and React.js. Contributed to POCs, hackathons.
- Worked on Livepeer, FFMPEG video playback and Solana QR pay for airdropping NFTs with React. Docker for node storage.

PROJECTS

50Fin Official Website ☑
Tech Stack: React js, TypeScript, Github, Firebase Hosting, Styled Components
- Developed 50Fin Official site using React.js. TypeScript for enhanced safety checks and responsive across devices.
- Configured Firebase hosting, automated deployment via GitHub Action YAML with each push, and gained exposure to GCP .
- Styled layout via Styled components for visual consistency, followed React's best practices for organized structure of files.

Crowdfunding Website For Environmental Crisis ☑
Tech Stack: React js, MUI CSS, Solidity, Hardhat, Supabase Auth, Trello
- **Hackathon-winning** Crowdfunding website, developed with React.js and Material UI, incorporates Supabase Auth for users.
- Deployed Solidity Smart contract on Polygon Mumbai to facilitate donation and campaign initiatives on Blockchain.

Feedback Hub ☑   May 2023 – present
Tech Stack: Next js, Chakra UI, Vercel, Firebase Auth, Firestore DB, SWR
- SaaS project to add feedback and reviews for your website on the platform. Deployed serverless to Vercel with Git.
- Authentication and user data storage is done using firebase, firestore and SWR. Future plans include JWT Auth, Stripe.

SKILLS

Programming Languages:	**Tools / Platforms:**	**Web Development:**	**Blockchain Development:**
Java, OOPs, Data Structures and Algorithm, C++, HTML, CSS, JavaScript/TypeScript	*Ubuntu, Git and Github, Vercel, Netlify, Slack, Trello, Docker(Beginner)*	*React.js, Node.js/Express.js, NEXT.js, Tailwind, MUI, Firebase, MongoDB*	*Solidity, Hardhat, Ether js, Web3-SDKs, Chai, ZK-Proofs, Ganache, Remix*

EDUCATION

Bangalore Institute Of Technology   2020 – 2024 | Bangalore, India
B.E. in Information Science & Engineering
CGPA: 9.03/10

Greenfingers Global School, CBSE   2010 – 2019 | Navi Mumbai, India
Class XII Aggregate: 91.8% | Class X CGPA: 9.2

AWARDS

Hackman-DSCE 2023, Hackathon Winner
Our team secured first prize among 45 Teams in a hackathon all over Bangalore. We were also offered an Internship.

ORGANIZATIONS AND CONTENT CREATION

- **Polygon Guild Bangalore Lead**, ☑ Managing Web3 events in Bangalore with Flipkart and a community of 150+ folks.
- **Published Technical Guide on Decentralized Metadata Storage** ☑ with Getboarded Technology on Medium Platform.
- **YouTube Content Creator:** ☑ Spreading blockchain literacy by arranging podcasts with Industry leaders.
